Professional Summary

Frontend Developer with academic background in Arabic Language and hands-on experience building responsive web applications using HTML, CSS, JavaScript, React.js, and Tailwind CSS. Developed complete projects from scratch and managed source code using Git and GitHub. Familiar with Vite, React Router, and modern UI/UX principles, focusing on clean, scalable, and maintainable front-end solutions. Fully committed to professional growth and available for full-time opportunities.

Key Projects

Loqma Eskndrany | E-Commerce Web Application | Independent Project | 2025

[React, CSS3, Axios, AppSheet, Google Sheets API] | [Live Demo](#) • [Source Code](#)

- **Modernization & Migration:** Architected the migration of a legacy HTML/JS site to **React (Vite)**, refactoring the codebase into reusable functional components and optimizing performance.
- **Dynamic CMS Integration:** Implemented a "No-Backend" administrative solution using **AppSheet** and **Google Sheets**, enabling non-technical clients to manage inventory and pricing in real-time.
- **Custom Checkout Flow:** Developed a client-side cart system with a seamless **WhatsApp API integration**, automating order formatting and dispatching, which eliminated the need for a dedicated backend server.
- **Responsive UI/UX:** Built a high-performance, mobile-first interface, ensuring accessibility and rapid load times for end-users

Personal Portfolio | Professional Engineering Showcase | Independent Project | 2026

[React, Tailwind CSS 4.1, i18next, React-GA4, EmailJS] | [ahmedzaki.me](#) • [Source Code](#)

- **Architecture & Data Automation:** Engineered a data-driven architecture using **Dynamic JSON handling** to decouple content from logic, allowing for seamless project updates without modifying the core codebase.
- **Internationalization (i18next):** Implemented full multi-language support (Arabic/English) with a fluid **RTL/LTR layout transition**, ensuring a consistent user experience across different linguistic orientations.
- **Performance Optimization:** Boosted application speed and UX by implementing **useMemo** for expensive computations, video/image compression, and **Skeleton Loading** states to prevent layout shifts.
- **Advanced Logic & Tracking:** Integrated **Google Analytics 4 (GA4)** to track user behavior in a Single Page Application (SPA) environment and leveraged **React Hook Form** with **EmailJS** for robust form validation and serverless communication.
- **Modern Styling:** Built a fully responsive, high-performance UI using **Tailwind CSS 4.1**, featuring native **Dark/Light mode** support and custom animations.

Professional Experience

Front-End Developer | Personal & Freelance Projects | 2024 - Present

- Built responsive and interactive web applications using HTML, CSS, JavaScript, React.js, and Tailwind CSS.
- Developed a personal portfolio and an e-commerce web application from scratch using React (Vite), React Router, and modern component-based architecture.
- Implemented responsive layouts with Tailwind CSS, Flexbox, and CSS Grid to ensure cross-device compatibility.
- Designed reusable and scalable React components and organized project structure for maintainability.
- Managed application state using React Hooks (useState, useContext, useEffect, useMemo, useRef), Custom Hooks.
- Integrated REST APIs using Axios to handle dynamic data fetching and user interactions.
- Deployed projects using Vercel and Netlify with GitHub CI/CD integration.
- Used Git and GitHub for version control, branching, and collaborative workflow.

Skills

Soft Skills: Communication | Problem Solving | Self-Learning | Adaptability | Fast Learning.

Technical Skills: HTML5 | CSS3 | JavaScript (ES6+) | React.js | React Router | Axios | API Integration | Git | GitHub | Vite | Responsive Design | Flexbox | CSS Grid | Tailwind CSS | Performance Optimization.

Education

Bachelor of Arts | Arabic Language Department

Alexandria University

Languages

- Arabic
- English
